

Leading Women in Business - Columbus

"The best injectables are not detectable," says Kathy Keeney.

As owner of Boss Gal Beauty Bar, Kathy is transforming the Medspa experience throughout the Midwest.

"We're an open concept facial bar and medspa that offers everything from facials and fillers to microneedling and lasers. While our facial services are performed in an open space, our medical services are performed in a private treatment room," she says. "Everything we do is focused on helping our clients become the best version of themselves."

Leveraging her medical expertise as an

emergency room nurse, Kathy ventured into entrepreneurship and opened her first medspa. With a mission to empower women and break the stigmas surrounding cosmetic injectables, Boss Gal Beauty Bar has become one of the most sought-after medspas in the region.

Today, Kathy operates four locations throughout the Columbus region. Voted as the top employer for Columbus CEO in 2022, she has earned a reputation for empowering both her staff and clients. With her team of nurse injectors and estheticians, Kathy says the highly qualified Boss Gal team is a big reason

why they've become largely successful over such a short period of time. In just four years, Boss Gal has become the #1 provider for Hydrafacials in Ohio. They are also ranked ninth in the country in sales for ZO Skin Health, a well-known medical-grade skincare line.

"I make sure we have the right people for our clients and our culture," she says. "It's how we approach everything here at Boss Gal."
